White Sands Missile Range

2046 Strategic Plan

White Sands Missile Range, N.M., Aug. 19, 2016 - The White Sands

Missile Range 2046 Strategic Plan is now available on the range's public website at:

http://www.wsmr.army.mil/pdf/WSMR_2046_Strategic_Plan_v1_2_FINAL_v1_3.pdf.

The United States faces a rapidly changing global security environment that is volatile, unstable and increasingly threatening to our nation's interests. WSMR's 2046 Strategic Plan is a 30-year outlook on a required future state of threats and 3rd offset strategies and capabilities which will be needed to maintain the competitive edge over U.S. adversaries. It contains the Commanding General's future vision for the range; presenting an assessment of current and foreseen capabilities, facilities, requirements, processes and operations that will

guide the range's efforts to ensure WSMR remains a premier Major Range Test Facility Base in support of the nation's security.

During the development of this plan, WSMR reached out to its internal and external regional partners and stakeholders throughout the country to help shape WSMR's required goals. The partnerships identified in this plan will be key to collective success in the future.

WSMR's Strategic Plan will help reshape the way WSMR does business now, set the foundation for future changes, and define a concept of monthly reviews to measure progress. The plan will be a living document and updated periodically to reflect changing conditions.

The plan guides WSMR to deliver tomorrow's readiness!
